FLOW FORMING PROCESS

The flow forming process maintains the integrity of the design while improving grain-structure of the aluminum, creating a stronger, lighter, and thinner forged-like rim barrel. Flow forming is the answer to the market's demand for lightweight wheels that are more durable and enhance overall vehicle driving performance.

STEP 1
Heat and coating is applied to the flow-forming drum. Cast wheel is mounted on the drum and ready to be formed.

STEP 2
Pressure is applied to the rim barrel. Specially designated hydraulic rollers are used to stretch the wheel by applying pressure to the rim barrel.

STEP 3
The wheels' properties are compressed and stretched to achieve the desired width.

STEP 4
Stretching results in an improved grain-structure of the aluminum, which makes for a stronger, thinner, and lighter forged-like rim barrel. The final product is more durable on impact and enhances overall vehicle performance.

Vossen applications are tuning size setting, instalations to nomal vehicles should withhold.
Body work may be required depending on vehicle solid difference and models.
In addition, please support genuine products to conform to the vehicle inspection standard.

WARRANTY

Our Industry Leading Warranty

Our warranty is a statement of confidence in the quality of our wheels. Every Vossen wheel is put through the highest standard in testing and quality control. These high standards allow us to provide an industry leading 5 year workmanship warranty and a lifetime structural warranty, which proves we stand behind our product 100%.

Within the first 5 years of ownership, if any defects in material or workmanship arise under normal and reasonable use when properly installed and maintained, Vossen Wheels will replace or refinish your wheels free of charge. Our lifetime structural warranty will guarantee the replacement of your wheel in the event of a structural failure caused by a manufacturer defect. Please contact us for our warranty guidelines and a return authorization number to file a claim.

We take great pride in the warranty that we offer to our customers. The bottom line is that a warranty is only as good as the company that stands behind it.
